PROJECTS

RegexXP
www.regexxp.online ⧉
HTML5, CSS3, JavaScript, React, Redux, Bootstrap, Express, Node, Passport, OAuth, MongoDB, Now

Fullstack App
- RegexXP allows users to create and solve challenges to gain XP with regular expressions. It also features a 20 step tutorial on regular expressions in JavaScript.

Mentat
(demo) https://thesherwood.github.io/Mentat ⧉
HTML5, CSS3, JavaScript, TiddlyWiki

4 UI/UX Plugins
- Mentat is a series of four UI/UX plugins for the TiddlyWiki platform that provide an OS style interface as well as tools and primitives for other developers to build further interfaces in TiddlyWiki.

ReconJS
(npm) https://www.npmjs.com/package/@thesherwood/reconjs ⧉
JavaScript, Rollup, Acorn

JavaScript Library
- ReconJS is a configurable JavaScript library that statically analyzes arbitrary JavaScript code for security threats.

ReconJS Site
https://reconjs-site.thesherwood.now.sh/ ⧉
HTML5, CSS3, JavaScript, React, Next, Express, Node, MongoDB, Now

Fullstack App
- The ReconJS Site is an adversarial demo of ReconJS that gamifies attempting to beat its security. Code responsible for a successful security breach is stored in a database to be used to improve ReconJS.

Bibliostack
www.bibliostack.com ⧉
HTML5, CSS3, JavaScript, React, Material-UI, Express, Node, Passport, MongoDB, Now

Fullstack App
- Bibliostack helps you shop for books, not a book at a time, but booklists at a time. Bibliostack is the tool for the avid reader on a budget.
